WOLFRAM TECHNOLOGY CONFERENCE

What this presentation is about

Make sure you understand how to use

- wiki**
- Forums**

Explain the inner workings of the site

Increase community involvments

Suggest 1001 ways you can help

WOLFRAM TECHNOLOGY CONFERENCE

Use cases

Wiki

WebMathematica-Wiki

Forums

WebMathematica-Forums

WOLFRAM TECHNOLOGY CONFERENCE

Key Technologies

In the wiki:

webMathematica

CSS stylesheets

***DatabaseLink* package**

Storing all the pages

**JLink (MD5 encryption)
Regular Expressions**

For creating the actual pages

MSPToExpression

to show *Mathematica* code

For the forums

[All of the above](#)

[Server mail \(JavaMail through JLink\)](#)

[More CSS](#)

Internal workings

[Quick look at the source code...](#)

WOLFRAM TECHNOLOGY CONFERENCE

Let's get ready for 6.0...

Does it feel like there is a lot to learn?

Can our community improve 6.0's success?

WOLFRAM TECHNOLOGY CONFERENCE

What can you do?

Contributions:

Upload your notebooks!

Explain how you use Mathematica

The Big Projects:

Mathematica blog

PHP to *Mathematica* parser

Better handling of site statistics

Mathematica Chat

Search on *Mathematica* keywords

Interface with Google
